

Ram's Leap

The vineyard is planted on the virgin soils of a 2000 year old river bed, rich in alluvial deposits. Situated on the McLaughlin's 4th generation outback sheep station, the vines are maintained on a chemical free basis. Sheep play a crucial role in the vineyard for weed control.

2008 Verdelho

A medium to full bodied wine displaying hallmark citrus & honeysuckle characters finishing with good natural sweetness and balanced acidity.

Vineyard:

Canonbah Bridge Vineyard, Western Plains, NSW.

Winemaking:

Fermented in stainless steel tanks to enhance the floral elements of the wine. Matured in tank for a further 6 months before fining and filtering prior to bottling. The good natural acidity at harvest made for a well-balanced wine with a soft finish.

Technical Details:

Varietals - 100% Verdelho
Bottling date: November 2008
pH: 3.32
Residual sugar: 12.5g/L
Alcohol: 12.5%

Tasting Note:

The Verdelho is dominated by fresh citrus notes with good weight on the palate. The bouquet displays typical varietal characteristics of passionfruit and tropical hints, finishing with great natural sweetness distinctive to the 2008 harvest.

Cellar potential:

Now up to 2 years
